

News Release

April 01, 2015

Cummins Power Generation is delighted to announce the appointment of ElectroProject as Authorised Cummins Dealer for the sales and aftermarket of Low KVA diesel generator sets. As part of its strategic growth plans in the Residential and Light Commercial segment, Cummins Power Generation (CPG) is developing a new dealer network in targeted European countries.

Operating from its head office in Amsterdam, ElectroProject has been selected to actively promote, sell and provide factory certified service on CPG Low KVA generator sets. ElectroProject will work in close collaboration with the Cummins Holland distributor located in Dordrecht.

Cummins Power Generation is a world leader in the design and manufacturing of pre-integrated generator sets. All major components - engine, alternator, transfer switches and control systems – are designed and manufactured by Cummins, a name which is synonymous with performance and reliability.

ElectroProject has renowned experience as system integrator for new projects and renovations, with proven capabilities in developing and supplying emergency power solutions, electrical drives and service to a variety of market segments. Some of these segments include small local businesses, Healthcare, Utility/HVAC, industry and retail, where Low KVA diesel gensets are often requested as source of standby power.

It's focusing on these specific segments that the new partnership between Cummins and Electroproject will focus on, to provide customers with the latest and most reliable power generation technology combined with premium customer service and support.

About Cummins Inc. and Cummins Power Generation Inc.

Cummins Inc., a global power leader, is a corporation of complementary business units that design, manufacture, distribute and service diesel and natural gas engines and related technologies, including fuel systems, controls, air handling, filtration, emission solutions and electrical power generation systems. Headquartered in Columbus, Indiana, (USA) Cummins currently employs approximately 48,000 people worldwide and serves customers in approximately 190 countries and territories through a network of approximately 600 company-owned and independent distributor locations and approximately 6,500 dealer locations.

Cummins Power Generation Inc., a subsidiary of Cummins Inc., is dedicated to increasing the availability and reliability of electric power anywhere in the world. Cummins Power Generation today delivers innovative solutions for any power need—commercial, industrial, recreational, emergency, and residential.
